"His life itself is a scripture..." Swami Chinmayananda, during his 42 years of teaching, came to be known as one of the most respected teachers of the ancient spiritual science called Vedanta. Swamiji expounded that teaching from lecture platforms around the globe, unfolding, verse by verse, the meaning of the major Upanishads, the Bhagavad-gita, and other texts of Vedanta. However, his teaching did not stop when he stepped of the lecture platform. In fact, his entire life was a teaching. He taught at every breath. The words he spoke during simple daily transactions or in response to a question served as powerful lessons toward a deeper understanding of self and the world. Even a simple action could become a potent teaching. A look, a word, a small but telling action was all that was needed to divinise the given moment or help the student resolve an inner conflict. This book unfolds the vision of Vedanta through actual accounts of his student's personal encounters with Swamiji. These Short vignettes address questions such as: - How can I meet the many demands of life without undue stress? - What can I do to hasten my progress on the spiritual journey? - How do I rid myself of a negative habit? - How can I succeed in business while staying true to my values? - How can I transcend the limitations of my body, mind, and intellect and rest in pure Consciousness?

Buddhist teachings reveal guidance for proper breathing and realizing inner potential, in order to better approach financial, relationship, and career issues.

Today, when our human family is facing so many challenges, it is more important than ever that we find peace and sustenance in our hearts. Love on Every Breath, or Tonglen, is an eight-step meditation for anyone who wants to nourish and open their heart. An ancient and profound meditation that has been practiced in isolated mountain retreats in the Himalayas for centuries, it is now available to us in the modern world. Lama Palden Drolma, a Western teacher trained by Tibetan Buddhist masters and also schooled in contemporary psychotherapy, introduces readers to the meditation in this powerful, user-friendly book. She walks readers step-by-step through the meditation, from beginning issues of sitting with awareness and focusing on the breath to taking in and extending love. Real-life challenges of sadness, anger, and overwhelm are addressed with "On-the-Spot" versions of the meditation. Love on Every Breath is a meditation that changes our experience in the moment — and changes our lives.

Mindful breathing is direct, natural and easy to learn, it is simply using your breath as a focus or a tool for mindfulness. If you can breathe you can be mindful and once you master this you can access it at any point, wherever you are day or night. Mindful breathing can help you to: • Gain an immediate sense of peace - this can be experienced from the first breath • Helps you accept yourself, other people, and your life, just as they are without fighting against them • Connect to your own inner strength • Achieve an inner sense of well-being, energy, and joy • Be kinder to yourself and to others Following on from the hugely successful I Met A Monk, Rose Elliot, renowned vegetarian chef and proponent of mindfulness gently leads the reader on a journey that starts with the teachings of the Buddha on a moonlit evening. In its re-telling she reveals the techniques and teachings of the Buddha, that are as valid today as they were two and a half thousand years ago on mindful breathing. Every Breath You Take brings a fresh approach to mindfulness that will inspire anyone who hasn't tried it and will bring new life to the practice of those who have. Both practical, personal and inspirational this book will give you the tools and exercises you need to be able to understand and use mindful breathing every day of your life.

In Teach, Breathe, Learn, Meena Srinivasan highlights how mindfulness can be an effective tool in the classroom. What makes this book truly unique is her perspective as a classroom teacher, wrestling daily with the conditions about which she writes. "Teach, Breathe, Learn provides accessible, practical application of mindfulness to overcome challenges faced during the school day." Testimonials from students and colleagues are woven throughout the book. Teach, Breathe, Learn is designed for educators at all levels, parents interested in sharing mindfulness with their children, and anyone curious about how to cultivate their own mindfulness practice and eventually teach mindfulness to others. Part 1 helps teachers develop compassion and shift from "reacting" to "responding" to demands. Part 2 offers techniques for cultivating loving-kindness, gratitude and seeing students, colleagues, and parents as oneself. The last section of the book introduces a curriculum teachers can use to incorporate mindfulness into their classroom, replete with lesson plans, handouts, and homework assignments.
