However, it's probably best they stay under the radar, seeing as the last artist to depict Trump nude, Ilma Gore, was later attacked by a man who yelled "Trump 2016!"

Underlying the many crises in American life, writes Richard John Neuhaus, is a crisis of faith. It is not enough that more people should

believe or that those who believe should believe more strongly. Rather, the faith of persons and communities must be more compellingly

related to the public arena. "The naked public square"--which results from the exclusion of popular values from the public forum--will almost certainly result in the death of democracy. The great challenge, says Neuhaus, is the reconstruction of a public philosophy that can undergird American life and America's ambiguous place in the world. To be truly democratic and to endure, such a public philosophy must be grounded in values that are based on Judeo-Christian religion. The remedy begins with recognizing that democratic theory and practice, which have in the past often been indifferent or hostile to religion, must now be legitimated in terms compatible with biblical faith. Neuhaus explores the strengths and weaknesses of various sectors of American religion in pursuing this task of critical legitimation. Arguing that America is now engaged in an historic moment of testing, he draws upon Protestant, Catholic, and Jewish thinkers who have in other moments of testing seen that the stakes are very high--for America, for the promise of democratic freedom elsewhere, and possibly for God's purpose in the world. An honest analysis of the situation, says Neuhaus, shatters false polarizations between left and right, liberal and conservative. In a democratic culture, the believer's respect for nonbelievers is not a compromise but a requirement of the believer's faith. Similarly, the democratic rights of those outside the communities of religious faith can be assured only by the inclusion of religiously-grounded values in the common life. The Naked Public Square does not offer yet another partisan program for political of social change. Rather, it offers a deeply disturbing, but finally hopeful, examination of Abraham Lincoln's century-old question--whether this nation or any nation so conceived and so dedicated can long endure.

Daring and original stories set in New Testament times, from a rising young Norwegian author Lars Petter Sveen 's Children of God recounts the lives of people on the margins of the New Testament; thieves, Roman soldiers, prostitutes, lepers, healers, and the occasional disciple all get a chance to speak. With language free of judgment or moralizing, Sveen covers familiar ground in unusual ways. In the opening story, a group of soldiers are tasked with carrying out King Herod's edict to slaughter the young male children in Bethlehem but waver in their resolve. These interwoven stories harbor surprises at every turn, as the characters reappear. A group of thieves on the road to Jericho encounters no good Samaritan but themselves. A boy healed of his stutter will later regress. A woman searching for her lover from beyond the grave cannot find solace. At crucial moments an old blind man appears, urging the characters to give in to their darker impulses. Children of God was a bestseller in Norway, where it won the Per Olov Enquist Literary Prize and gathered ecstatic reviews. Sveen's subtle elevation of the conflict between light and dark focuses on the varied struggles these often-ignored individuals face. Yet despite the dark tone, Sveen's stories retain a buoyancy, thanks to Guy Puzey's supple and fleet-footed translation. This deeply original and moving book, in Sveen's restrained and gritty telling, brings to light stories that reflect our own time, from a setting everyone knows.

Dylan Rosser focuses on the purity and sensuality of the male form, often showing not much more than a smooth, sexy male body using Page 5/6

light and shadow to accentuate the athletic curves and shapes of the models. The key idea of 'x-posed' is to keep it all nude, because as soon as items of clothing are added, one inevitably ends up with an image dated in time. Rosser's aim is to keep his pictures timeless, sensual and classic.

Anyone interested in astronomy battles with the conveniences of modern living – street lights, advertising and security lighting, tall buildings, and even the occasional tree. More than 85% of the population now lives in crowded and light-polluted towns and cities. This book is for those who live in or near towns and cities and own relatively modest equipment, although observers with larger instruments will still find many of the target objects of interest. The book encourages the use of star-hopping techniques to find objects in the night sky. Included is a list of 100 popular deep sky objects, ranked according to how difficult they are to find. Each object is described and has companion star-hopping charts, images and sometimes sketches. As a result, readers can gain a sense of their own backyard view from Earth. There is also a top 30 list of lunar objects, a section on planetary observing, annotated lists of popular astronomy apps and software, and tips on how to make the most of your location. Stargazing Under Suburban Skies: A Star-Hopper 's Guide is the essential companion to what can be seen and how, regardless of the obstacles.
