product or service into the market. Projects are about delivering new products and services. The merger of these two fields holds great promise for delivering value to organizations and their clients. Project managers can serve many markets ranging from investors who fund projects to that of clients who use new products and services. Marketing Projects is a guide for helping project managers have projects funded or deliver value to end users. It is also a guide for marketing managers new to the world of project management. The book begins by presenting the basics of both marketing and project management and highlights the aspects that are unique and relevant to both areas. It then explores marketing project feasibility and presents tools for assessing feasibility, which include the

managing the processes for delivering new products and services. Marketers are keenly aware of latent, or unconscious needs, as well as those developing and emerging, and can provide project promoters and managers with exciting ideas. This book will help improve the mutual understanding between marketing and project managers, an effort ultimately benefiting end users, whether they be investors or customers. A better work atmosphere and a closer fit between marketing and project management objectives can only serve the interests of investors and end users, for whom marketers and project managers conceive and realize projects, one way or the other.

for a state-of-the-art sports racing car, so he split with the giant corporation to build the T70 under the aegis of his own company: Lola. Immediately successful, the T70 carried John Surtees to the Championship in the 1966 Can-Am series. The cars were also very successful in Group 7 races until the series ended in 1966, by which time the likes of Denny Hulme, David Hobbs and Brian Redman had all driven T70s to victory. Under continuous development until the Mk IIIb Coupé of 1969, the T70 was never a great endurance racer but achieved major successes in shorter events such as the TT and Martini races. Today, the T70 is a leading force in historic racing. Over many years, John Starkey – T70 owner and ex-Curator of the famous Donington racing car collection – has compiled a huge

amount of information on the cars and interviewed many past and present owners and drivers about their experiences with the T70. Uniquely, this book contains the history and specification – where known – of each individual T70 chassis. Available again after an absence of several years, here is the definitive development and racing history of the Lola T70.

Uncover the captivating history of the highest-performance cars in America, illustrated with beautiful photography. The American muscle car began not in the factories of the big three automakers, but in the garages and dealerships of a hot-rod subculture bent on making the hottest, highest-performance cars on the street. The

Complete Book of American Muscle Supercars catalogs these amazing cars, along with the builders who unleashed them on the American scene. From Michigan's Royal Pontiac dealership and the souped-up Royal Pontiac Bobcats they built and sold, to the new cars from such fabled names as Carroll Shelby, Mr. Norm's Grand Spaulding Dodge, Nickey Chevrolet, Don Yenke, George Hurst, Baldwin-Motion, Calloway, SLP, and Steve Saleen. This gorgeously illustrated book chronicles the outstanding contribution of the tuner/builder to American automotive history through the amazing machines they created. From the oldest of these muscle tuners commanding top dollar at today's classic-car auctions, to the latest vehicles by Ford and Chrysler, with their SVT and SRT divisions, this

subsequent model continued to strengthen that position. But how do you upgrade America's favorite sports car? Make it a special edition! Special edition Corvettes are the tip of the spear when it comes to the American auto manufacturers special models. Luminous cars such as the 1967 L88 convertible, 1969 aluminum block ZL1, and 2015 Z06 #001 have all commanded a million dollars or more. Modern dealer-tuned cars from Lingenfelter, Calloway, and Hennessey have carried the tradition of making a great Corvette even better. Extremely low mileage on 1978 Pace Cars indicate that people have thought of these cars as investments for nearly 40 years. Keith Cornett of Corvetteblogger.com compiles a murderer's row of special-edition Corvettes in this first-ever compilation
