Comprehensive coverage of passive solar greenhouse design including material selection, building methods and how to store thermal energy using a variety of simple and innovative strategies. Over a dozen case studies provide real-life inspiration, capped off with how-to guidance for building a durable, energy-efficient greenhouse. Variations include underground and aquaponic greenhouses and integrating solar panels to grow off-grid, year-round.

Gardening in the Tropics contains a rich Caribbean world in poems offered to readers everywhere. Olive Senior's rich vein of humour can turn wry and then sharp in satire of colour-consciousness, class-consciousness and racism. But her predominant tone is the verbal equivalent of a pair of wide-open arms.

"Written with enthusiasm and dedication, Analysis for Financial Management, 9th edition, presents Financial Management in a clear and conversational style that both business students and non-financial executives comprehend." --Book Jacket.

Now in its 10th edition, Business Finance is an essential introduction to financial decision-making in businesses. Taking a user-friendly approach, it explores the type of investments a business should make and how they should be financed, and successfully blends the theoretical, analytical and practical aspects of finance and investments. The new edition has a strong real world focus, exploring the theories surrounding financial decision making and relating these theories to what happens in the real business world. Key features: An extensive range of up-to-date real-world examples Examination of the divergences between theory and practice Expanded explanations of complex theories Comprehensive coverage of the latest international issues Clear design and pedagogical features for enhanced readability and quick reference Visit the companion website for this book at [www.pearsoned.co.uk/mclaney](http://www.pearsoned.co.uk/mclaney) where you will find a variety of resources for students and lecturers alike. Business Finance is suitable for undergraduates in accounting and finance and for those on finance and financial management courses. It is also appropriate for postgraduate students with an option in accounting and finance and will be highly useful for professional accounting students. Eddie McLaney is Visiting Fellow in Accounting and Finance at the University of Plymouth.

For centuries, spiritual seekers have turned to astrology to discover humans' deepest connections with the Earth and the cosmos. But too often, astrology devolves into meaningless clichés or impersonal newspaper horoscopes. In the early part of this century Marc Edmund Jones and Dane Rudhyar liberated astrology from the fatalistic approach of the medieval world. They took power from the high-and-mighty archaic planet gods, and offered it back to human beings. Here, at the end of the century, Inside Planets goes further, invoking each planet as a mighty full-bodied organism with a character and a soul of its own, a living breathing force with passion and humor and purpose that changes as it moves through the houses and signs. Each planet grabs you by the imagination and drags you to the campfire of The Greatest Story Ever Told. Far more than an astrology guide, this book resuscitates from the ancient mystery temples of Atlantis an elegant and inspiring pantheon of wonder, terror, and creative solution to the problems that plague the soul.
