G10 Engine Weight

This is a list of automobile engines developed and sold by the Suzuki Motor Corporation. Suzuki is unusual in never having made a pushrod automobile engine, and in having depended on two-strokes for longer than most. Their first four-stroke engine was the SOHC F8A, which appeared in 1977. Suzuki continued to offer a two-stroke engine in an automotive application for a considerably longer time ...

Suzuki G10 (Swift/geo) Engine
In Mini? - posted in Suzuki:
Hi all, I have been thinking
of a g10 engine for my mini.
I know they only make 50 odd
horse, but if it cruises at
75-80 on motorway and does
50mpg that would be fine. I
have picked up an auto
subframe, as they are a bit
wider than the manual ones.
Has anyone done this? I don't
want to cut the inner wings
off, as mine are rot free (yes-
really!).
