The world's most elite counterterrorism unit has just taken its game to an entirely new level. And not a moment too soon . . . From behind the rows of razor wire, a new breed of counterterrorism operator has emerged. Just as skilled, just as fearsome, and just as deadly as their colleagues, Delta Force's newest members have only one thing setting them apart—their gender. Part of a top-secret, all-female program codenamed The Athena Project, four of Delta's best and brightest women are about to undertake one of the nation's deadliest assignments. When a terrorist attack in Rome kills more than twenty Americans, Athena Team members Gretchen Casey, Julie Ericsson, Megan Rhodes, and Alex Cooper are tasked with hunting down the Venetian arms dealer responsible for providing the explosives. But there is more to the story than anyone knows. In the jungles of South America, a young U.S. intelligence officer has made a grisly discovery. Surrounded by monoliths covered with Runic symbols, one of America's greatest fears appears to have come true. Simultaneously in Colorado, a foreign spy is close to penetrating the mysterious secret the U.S. government has hidden beneath Denver International Airport. As Casey, Ericsson, Rhodes, and Cooper close in on their target, they will soon learn that another attack—one of unimaginable proportions—has already been set in motion, and the greatest threat they face may be the secrets kept by their own government.

This brief text identifies the issues, resources, actors, and institutions involved in public policy making and traces the dynamics of the policymaking process, including the triggering of issue awareness, the emergence of an issue on the public agenda, the formation of a policy commitment, and the

implementation process that translates policy into practice. Throughout the text, which has been revised and updated, Gerston brings his analysis to life with abundant examples from the most recent and emblematic cases of public policy making. At the same time, with well-chosen references, he places policy analysis in the context of political science and deftly orients readers to the classics of public policy studies. Each chapter ends with discussion questions and suggestions for further reading.

A classic-feeling middle-grade novel with a modern twist about a girl dealing with friendship, family, and OCD.

Two brothers brave a whirlwind summer in this taut and luminous coming-of-age novel. A twelve-year-old boy lives with his family in a small, poverty-stricken town in Vermont. His father works at a manufacturing plant, his mother is a homemaker, and his fifteen-year-old brother is about to enter high school. His family has gained enough financial stability to move out of the nearby trailer park, and as conflict rages abroad, his father's job at a weapons manufacturing plant appears safe. But then his mother is diagnosed with cancer, and everything changes. As the family clings to the traditions of their hard-line Catholicism, he meets Taylor, a perceptive, beguiling girl from the trailer park, a girl who has been forced to grow up too fast. Taylor represents everything his life isn't, and their fledgling connection develops as his mother's health deteriorates. Set over the course of one propulsive summer, *Soon the Light Will Be Perfect* chronicles the journey of two brothers on the cusp of adulthood, a town battered by poverty and a family at a breaking point. In spare, fiercely honest prose, Dave Patterson captures what it feels like to be gloriously, violently alive at a moment of political, social and familial instability.
