The Social Science Outcomes Grade 9 Student's Book is designed to help students achieve the learning outcomes and indicators from the Grade 9 Social Science syllabus. There are 29 units in the Student's Book - one can be studied each week of term. A variety of Social Science topics are presented in challenging and socially relevant ways. There are four strands of Social Science: an environment and resources strand, an organisation strand, a culture strand, and an integrated project strand to be completed at the end of each term. By the end of the course, students should have a greater understanding of the major aspects of Social Science. The full colour illustrations and photographs should inspire and maintain students' interest.

This resource book is designed to assist teachers in implementing California's history-social science framework at the 10th grade level. The models support implementation at the local level and may be used to plan topics and select resources for professional development and preservice education. This document provides a link between the framework's course descriptions and teachers' lesson plans by suggesting substantive resources and instructional strategies to be used in conjunction with textbooks and supplementary materials. The resource book is divided into eight units: (1) "Unresolved Problems of the Modern World"; (2) "Connecting with Past Learnings: The Rise of Democratic Ideas";
