~~An Introduction to Game Theory — Solutions — Osborne, M. J. ...~~

Answer: The optimal solution is obtained by maximizing the payoff function $() = -4$
2. The first-order maximization condition is $-8 = 0$ implying that $= 8$ is the optimal solution. For $= 1$ the solution is $= 1/8$ and for $= 4$ it is $= 1/2$. € (c) Show that in general, smaller people should drink less than larger people.

~~An Introduction to Game Theory by Martin J. Osborne~~

Definition. Game theory is a systematic study of strategic interactions among rational individuals. Its limitations aside, game theory has been fruitfully applied to many situations in the realm of economics, political science, biology, law, etc. In the rest of this chapter we will illustrate the main ideas and concepts of game theory and some of its applications using simple examples. In later
