This book presents the first full length study in English of monumental bronzes in the Middle Ages. Taking as its point of departure the common medieval reception of bronze sculpture as living or animated, the study closely analyzes the practice of lost wax casting (cire perdue) in western Europe and explores the cultural responses to large scale bronzes in the Middle Ages. Starting with mining, smelting, and the production of alloys, and ending with automata, water clocks and fountains, the book uncovers networks of meaning around which bronze sculptures were produced and consumed. The book is a path-breaking contribution to the study of metalwork in the Middle Ages and to the re-evaluation of medieval art more broadly, presenting an understudied body of work to reconsider what the materials and techniques embodied in public monuments meant to the medieval spectator.

More than twenty years have passed since Walter Auffenberg's monumental The Behavioral Ecology of the Komodo Monitor. In the intervening years the populations of Komodo dragons—native only to a handful of islands in southeast Indonesia—have dwindled, sparking intensive conservation efforts. During the last two decades new information about these formidable predators has emerged, and the most important findings are clearly presented here. A memoir from Walter Auffenberg and his son Kurt is followed by the latest information on Komodo dragon biology, ecology, population distribution, and behavior. The second part of the book is dedicated to step-by-step management and conservation techniques, both for wild and captive dragons. This successful model is a useful template for the conservation of other endangered species as well, for, as Kurt and Walter Auffenberg note, “ The species may well indeed survive in the wild for generations to come while countless other organisms are lost. ”

According to David Satcher, M.D., Ph.D., the 16th U.S. Surgeon General, we know a great deal more about treating mental illnesses than about preventing them and promoting mental health. In his foreword to Clinical Manual of Prevention in Mental Health, Dr. Satcher applauds this guide as timely and vital, as it provides new and emerging research on the importance of prevention in mental health. Clinical Manual of Prevention in Mental Health was conceived through discussions within the Prevention Committee of the Group for the Advancement of Psychiatry (GAP), and features contributions from 30 highly regarded clinicians and researchers who are experienced in the treatment and prevention of specific types of mental illnesses. Clinical Manual of Prevention in Mental Health will help you move toward widespread adoption of mental illness prevention in your own practice setting. This important new reference provides practical suggestions to help you work toward preventing, or implementing preventive measures in the treatment of Mood disorders Anxiety disorders Schizophrenia Substance use disorders Suicidality Family violence Conduct disorder and other adolescent disorders Late-life depression, dementia, and mild cognitive impairment Physical illnesses in psychiatric settings Cigarette smoking Compared with other areas of medicine, such as the prevention of infectious disease, our understanding of the prevention of mental illnesses remains in a relatively nascent state, especially in terms of how prevention can be incorporated into routine clinical practice. The authors of the various chapters have endeavored to balance reviewing the available research knowledge with providing guidance for practicing clinicians on how such knowledge can be incorporated into everyday practice. Clinical Manual of Prevention in Mental Health urges clinicians everywhere to inquire about risk factors and protective factors in patients' lives in addition to focusing on the presenting problem. It is the authors' intent to provide mental health professionals with the knowledge and practical applications necessary to be prevention-minded in all of their interactions with patients, families, and the community.

2012 Finalist - Reader's Favorite Awards *** International Best Seller *** Book 2 - in the Series "My Blood Runs Blue" " You belong to me... for life... " After a month off, Kristin comes back to work happier then she ' s been in a long time. Her new status in life has her solving crimes faster and better than she ever could before. When Alex goes missing, Kristin finds she finally has to reveal the secrets of her life to her friends. Will they be able to stand beside her after they learn all that she has hidden from them? Julian and Gabe stand beside her faithfully as they try to locate Alex. They are surprised to find Trent already in Fawn Hollow, but know that Trent may be the only one to do what Alex has asked them to do. As one more choice is taken away from Kristin, she attempts to make the best of it, but finds herself drawn to Trent in a way Julian and Alexander could never compare to. Trent goes to work with Kristin to keep her safe but will he be able to handle all that her police world entails? Can he handle the side of her that she reveals, the one that Alex and Julian know nothing about? When Kristin and Trent uncover the connection between her job and the kidnapping, they are finally able to put the pieces together, but can they get to Alex fast enough? Will Kristin be able to handle rescuing Alex and all that she learns in the process? Join Kristin, Julian, Trent and Alexander as they dive into a new mystery that will have you turning the pages quickly to find out who is responsible and how Kristin ' s life is forever changed once again. My Blood Runs Blue Series is an adult Paranormal Action/Romance Series and is intended for mature audiences.
