distinct policies and practices followed across different parts of globe.

Why do some policies succeed so well while others, in the same sector or country, fail dramatically? The aim of this book is to answer this question and provide systematic

research on the nature, sources and consequences of policy failure. The expert contributors analyse and evaluate the success and failure of four policy areas (Steel, Health Care, Finance, HIV and the Blood Supply) in six European countries, namely France, Germany, the Netherlands, the UK, Spain and Sweden. The book is therefore able to compare success and failure across countries as well as policy areas, enabling a test of a variety of theoretical assumptions about policy making and government.

Contemporary policy making is deeply influenced by the borrowing, transfer and diffusion of ideas and models from other countries, levels of government and supranational institutions. This is the first book to analyze comparatively the

micro-dynamics of transfer across regions, contrasting policy fields, multiple levels of governance, and institutional actors. Grounded in original research by specialists in the field, it provides fresh and arresting insights into competition among transfer agents, resistances, local coalitions, translation, and policy learning. This empirical depth informs a reinvigorated and nuanced theoretical framework on global policy transfer processes.

Public policy can be considered a design science. It involves identifying relevant problems, selecting instruments to address the problem, developing institutions for managing the intervention, and creating means of assessing the design. Policy design has become an increasingly challenging task,

given the emergence of numerous 'wicked' and complex problems. Much of policy design has adopted a technocratic and engineering approach, but there is an emerging literature that builds on a more collaborative and prospective approach to design. This book will discuss these issues in policy design and present alternative approaches to design.
