Paul Smith's Cycling Scrapbook Review - Magazine - Ride Velo

Synopsis This lively 'scrapbook' seeks to illustrate Paul Smith's favourite people, races and places in the cycling world through the romantic and beautiful images and places that inspired him.

This lively 'scrapbook' seeks to illustrate Paul Smith's favourite people, races and places in the cycling world through the romantic and beautiful images and places that inspired him. From his collection of cycling jerseys and his extensive library of cycling publications and brochures of the 1950s and 1960s, to the inspiration he has found in his cycling heroes (Coppi, Anquetil, Bartali) and his collaborations with bike-makers (Mercian and Pinarello) and race organizers, this is a personal and highly visual journey that connects Smith's love of cycling with his love of design. One climax to this parallel career came in 2013, when he was invited to design the legendary maglia rosa - the pink jersey worn by the leader of the Giro d'Italia, which was blessed by Pope Francis I and presented to the winner. Ultimately, this is not merely a book about one man's enthusiasm for a sport, but an insight into how the people, stories and imagery that fill this passion have influenced one of the most successful personalities in the design world.

Saddle manufacturer Brooks England have been a British household name and an international cycling icon for 150 years. What continues to motivate and inspire this classic marque? With the help of a variety of writers, artists, journalists, designers, photographers and illustrators, this eclectic compendium of cycling's joys depicts Brooks's unique and idiosyncratic view of the wide-ranging impact of the bicycle and its place in the world, alongside their dedication to function, quality and style. While Brooks is, at its heart, a British company, the team explore the bicycle as a worldwide phenomenon that has connected people - the Tour de France luring professional cyclists of all nationalities to the continental countryside - and continues to provide lone travellers with a gateway to all corners of the earth, celebrating journeys undertaken in some of the planet's most extreme environments, from South America's Atrato Swamp to Siberia. Alongside these ambitious projects, the simple joy of cycling to work, the sense of freedom and adventure afforded to all those who cycle for leisure, and the satisfaction gleaned from crafting the bicycle itself are exalted. The result isn't a book about a saddle maker, but a collection of fascinating contributions from leading creatives from a broad cultural spectrum who are as passionate about their work as they are about their cycling.

Atari is one of the most recognized names in the world. Since its formation in 1972, the company pioneered hundreds of iconic titles including Asteroids, Centipede, and Missile Command. In addition to hundreds of games created for arcades, home video systems, and computers, original artwork was specially commissioned to enhance the Atari experience, further enticing children and adults to embrace and enjoy the new era of electronic entertainment. The Art of Atari is the first official collection of such artwork. Sourced from private collections worldwide, this book spans over 40 years of the company's unique illustrations used in packaging, advertisements, catalogs, and more. Co-written by Robert V. Conte and Tim Lapetino, The Art of Atari includes behind-the-scenes details on how dozens of games featured within were conceived of, illustrated, approved (or rejected), and brought to life! Includes a special Foreword by New York Times bestseller Ernest Cline author of Armada and Ready Player One, soon to be a motion picture directed by Steven Spielberg. Whether you're a fan, collector, enthusiast, or new to the world of Atari, this book offers the most complete collection of Atari artwork ever produced!

A remarkable work, celebrating the moments when world-class Magnum photographers turned their lenses to one of photography's most rewarding subjects: cycling"

Do you want a holiday that bypasses too familiar haunts and gives you a greater depth of experience? Do you want a holiday that is enriching for you - and for the locals at your destination? If you do, and believe that your trip should give local communities a fair deal (so often denied them) as well as being fun, then this book is for you. This fully revised second edition of The Ethical Travel Guide is the essential resource for responsible global travel, providing a wealth of new ideas for your next holiday. The extensive directory has been updated and expanded, listing hundreds of places to visit and stay in countries all over the world. From sustainable farming in Ecuador to luxury culinary breaks in Crete, there is something for every taste and budget. A thorough introduction gives a background to the many ethical and practical issues involved, including a new section on travel and climate change. Combining thoughtful guidance with comprehensive listings, this is the essential guide for anyone interested in ethical, fair and sustainable tourism.

The headbadge has been affixed to finer bicycles for over a century. Made of steel, brass, copper aluminium and silver, and crafted using elaborate techniques such as die-pressing and acid etching, manufacturers transformed these badges into works of art. The badges, selected from the collection of American Jeff Corner, are given new life in this beautifully designed book by Phil Carter of Carter Wong design.

With a foreword by Eddy Merckx The world of professional cycling is fraught with fierce competition, fervent dedication and unerring ambition, and only a handful of competitors reach iconic status. Among them is Sir Bradley Wiggins – a man uniquely placed to reflect on the history of this remarkable sport and its unforgettable titans.

Explore the role the bicycle played in the women's liberation movement.

“ Greg LeMond was Lance Armstrong before Lance Armstrong . . . the story of a true hero . . . This is a must read if you believe in miracles. ” John Feinstein, New York Times – bestselling author In July 1986, Greg LeMond stunned the sporting world by becoming the first American to win the Tour de France, the world's pre-eminent bicycle race, defeating French cycling legend Bernard Hinault. Nine months later, LeMond lay in a hospital bed, his life in peril after a hunting accident, his career as a bicycle racer seemingly over. And yet, barely two years after this crisis, LeMond mounted a comeback almost without parallel in professional sports. In summer 1989, he again won the Tour—arguably the world's most grueling athletic contest—by the almost impossibly narrow margin of 8 seconds over another French legend, Laurent Fignon. It remains the closest Tour de France in history. “ [A] blend of chaos, kindness and cruelty typifies the scenes that journalist de Vis é brings to life in this sympathetic-verging-on-reverential retelling of LeMond's trailblazing career (first American to enter the tour, first to win it) . . . As an author in quest of his protagonist's motivation, [de Vis é ] subjects it to extreme torque. ” —The Washington Post “ A great book . . . Well written and thoroughly researched . . . Engrossing and hard to put down. If you're a Greg LeMond fan, The Comeback is a must read because it's a detailed accounting of his career and more importantly his life and person off the bike. It's also an important reminder that American cycling did not begin and end with Lance Armstrong. ” —PEZ

An exciting new monograph on one of Britain's foremost designers Sir Paul Smith.
