When a promise follows deception, the trustor is unlikely to perceive the promise as credible, and the promise is likely to be significantly discounted. Promises can articulate positive expectations regarding future behavior, but messages that are not credible will fail to change impressions and expectations (Tedeschi & Reiss, 1981). As a result, a promise

The third installment of a bewitching series "brimming with charm and charisma" that will make "fans of Outlander rejoice!" (Woman's World Magazine). New York Times bestselling author Paula Brackston's second novel in the Found Things series, *Secrets of the Chocolate House*, was called a "time-swapping romance [that] will please fans of Alice Hoffman" (Publishers Weekly). Now, Brackston returns to the Found Things series with a third book, *The Garden of Promises and Lies*. As the bustle of the winter holidays in the Little Shop of Found Things gives way to spring, Xanthe is left to reflect on the strange events of the past year. While she's tried to keep her time-traveling talents a secret from those close to her, she is forced to take responsibility for having inadvertently transported the dangerous Benedict Fairfax to her own time. Xanthe comes to see that she must use her skills as a Spinner if she and Flora are ever to be safe, and turns to the Spinners book for help. It is then that a beautiful antique wedding dress sings to her. Realizing the dress and her adversary are connected in some way, she answers the call. She finds herself in Bradford-on-Avon in 1815, as if she has stepped into a Jane Austen story. Now in Xanthe's time, Fairfax is threatening Xanthe into helping him with his evil doings, and demonstrates all too clearly how much damage he is capable of causing. With Fairfax growing ever more powerful, Xanthe enlists the help of her boyfriend Liam, taking him back in time with her. It is a decision that might just ensure she prevails over her foe, but

Angola's civil war was the longest and bloodiest in Africa. Once the battleground for a proxy war between the Cold War superpowers, the country was supposed to become a model for a smooth transition from armed conflict to democracy. The government, previously backed by the Soviet Union and Cuba, and the UNITA rebels, who once enjoyed American and South African support, would exchange bullets for ballots - but it all went wrong ...

UNITA's Jonas Savimbi rejected his defeat in the country's first ever free elections and plunged Angola back into war. The international community could only wring its hands, eventually negotiating a fragile new peace agreement. For millions of Angolans, however, the effects of a quarter of a century of violence have proved to be more enduring than the taste of peace.

Truth and lies are two sides of the same coin. But who's flipping it? A thought-provoking and brilliantly entertaining work of nonfiction from one of the world's leading deceivers, the creator and star of the astonishing theater show and forthcoming film *In & Of Itself*. Derek DelGaudio believed he was a decent, honest man. But when irrefutable evidence to the contrary is found in an old journal, his memories are reawakened and Derek is forced to confront--and try to understand--his role in a significant act of deception from his past. Using his youthful notebook entries as a road map, Derek embarks on a soulful, often funny, sometimes dark journey, retracing the path that led him to a world populated by charlatans, card cheats, and con artists. As stories are peeled away and artifices are revealed, Derek examines the mystery behind his father's vanishing act, the secret he inherited from his mother, the obsession he developed with sleight-of-hand that shaped his future, and the affinity he felt for the professional swindlers who taught him how to deceive others. And once he finds himself working as a crooked dealer in a big-money Hollywood card game, Derek begins to question his own sense of morality, and discovers that even a master of deception can find himself trapped inside an illusion. *A M O R A L M A N* is a wildly engaging exploration of the fictions we live as truths. It is ultimately a book about the lies we tell ourselves and the realities we manufacture in others.

Howard Roughan's debut, *The Up and Comer*, was hailed as one of the most hip and entertaining thrillers of the year. Now Roughan returns at full stride with a scintillating novel

He knows he is too involved, that he's crossed a line, and that his professional reputation is at stake. But he has no idea what awaits him at his destination...that he's become a pawn in a very deadly game of revenge. Suddenly the focus of a criminal case that flares into an out-of-control media circus, David has only one shot to clear his name. But first he has to clear up the mystery of his patient, - Samantha Kent. Just who is she? And why did she choose to involve David? Little by little, the outlines of a brilliant plot emerge - and, with it, the horrifying power of a single lie - In this richly textured tale of a man's battle against the mother of all manipulations, the perfect setup is even more diabolical than it looks.
