Church leaders often fall into ruts, working on automatic pilot just trying to get things together, which does not allow for much creativity or focus on designing services that lead to transformation for those involved in them. Engage is a step-by-step,

Getting up, going to work, coming home, and going to bed isn't doing it for you. You long for a life that matters. What will people say about you when you're gone? Will they even notice that another cog in the corporate machine is missing? Will people instead talk about the difference you made in their lives? Will anyone say, "My life is better for having known her" or "I'd be so much worse off if he hadn't given of himself?" The path to significance and meaning isn't paved with dollars or fame. It's paved with sacrifice and humility. While some people make a difference through their own selfishness, at the expense of others, most of us can put aside our plans and ambitions and really make a difference, a difference that outlasts our lives, a difference that changes lives and affects generations. This book is for every Christian or Christian leader who serves in the church, wants to, or leads people who do. Do you know why you serve? What do you do when it's difficult to do what you know God is calling you to do? Can you really serve in the same church for the rest of your life? What about money? Should people who serve be paid? We'll discuss reasons for serving, the attitude to have, leadership, following, flexibility, being a part of a team, and much more. This is a unique book because the author isn't a Pastor or even paid staff. He's a regular guy who's been serving tirelessly for years and wants to share what he's learned with you. You can affect lives and eternities. Will

This book examines the influence of music on the development of the Church of God (Cleveland, Tennessee). This narrative is historically driven, but relies upon an interdisciplinary approach to draw on the insights of ecclesiology, theology, liturgiology, church development, and especially music. This study utilizes a chronological and

systematic approach to the relationship between music and the Church of God in the United States during the first 125 years of the denomination's history, from 1886 to 2011. For over a century, music has been an often-neglected dialogue partner at the table of academic discussion and this research argues for recognition and a proper place in Pentecostal history. Along with primary and secondary sources, the important element of "living archives" is investigated in this work; these are interviews with people who participated in historical music events in the Church of God. The book also relies upon musical examples to explore the influence of music upon the shaping of the denomination's history and theology.
