Classical Physics — Gives students ample opportunity to work these unique exercises.

Ranking Task Exercises in
Physics: Student Edition

The idea of the ranking task is to have a student compare a number of physically similar systems that are allowed to vary in only one or two ways. The student must rank the systems (usually from greatest to least) on the basis of one of the system's physical variables (i.e.-velocity, acceleration, electric field strength, current, etc.).

- ComPADRE

This book features Ranking Task exercises - an innovative type of conceptual exercise that challenges readers to make comparative judgments about a set of variations on a particular physical situation. Two-hundred-and-eighteen exercises encourage readers to formulate their own ideas about the behavior of a physical system, correct any misconceptions they may have, and build a better conceptual foundation of physics.
