Root cellaring need not be strictly a country concept. Though it's often thought of as an adjunct to a large garden, a root cellar can in fact considerably stretch the resources of a small garden, making it easy to grow late succession crops for storage instead of many rows for canning and freezing. Best of all, root cellars can easily fit anywhere.

A root cellar can keep fruits and vegetables fresh through the winter. Salt pork and smoked meats, jams, canned food, wine and dry food can be kept in root cellars, which provide ideal natural cold storage solutions in eco style. Whole grains will remain in good condition for two or three years if kept cool, dry, and insect free.
