Works like Shoplifting From American Apparel just might be the future of literature, with a style that's wary of words' ability to say more than intended. Best to keep it simple, leaving a 100-page slice of life cut with a very sharp and discerning blade – one that Lin wields well.”—

times self-destructive--outpourings of his life, Tao Lin discovered the strange and exciting work of Terence McKenna. McKenna, the leading advocate of psychedelic drugs since Timothy Leary, became for Lin both an obsession and a revitalizing force. In *Trip*, Lin's first book-length work of nonfiction, he charts his recovery from pharmaceutical drugs, his surprising and positive change in worldview, and his four-year engagement with some of the hardest questions: Why do we make art? Is the world made of language? What happens when we die? And is the imagination more real than the universe? In exploring these ideas and detailing his experiences with psilocybin, DMT, salvia, and cannabis, Lin takes readers on a trip through nature, his own past, psychedelic culture, and the unknown.

In a startling change of direction, cult favorite Tao Lin presents a dark and brooding tale of illicit love that is his most sophisticated and mesmerizing writing yet. Richard Yates is named after real-life writer Richard Yates, but it has nothing to do with him. Instead, it tracks the rise and fall of an illicit affair between a very young writer and his even younger--in fact, under-aged--lover. As he seeks to balance work and love, she becomes more and more self-destructive in a play for his undivided attention. His guilt and anger builds in response until they find themselves hurtling out of control and afraid to let go. Lin's trademark minimalism takes on a new, sharp-edged suspense here, zeroing in on a lacerating narrative like never before--until it is almost, in fact, too late.

From the acclaimed author of *Taipei*, a bold portrait of a writer working to balance all his lives—artist, son, loner—as he spins the ordinary into something monumental. An engrossing, hopeful novel about life, fiction, and where the two blur together. In 2014, a novelist named Li leaves Manhattan to visit his parents in Taipei for ten weeks. He doesn't know it yet, but his life will begin to deepen and complexify on this trip. As he flies between these two worlds--year by year, over four years--he will flit in and out of optimism, despair, loneliness, sanity, bouts of chronic pain, and drafts of a new book. He will incite and temper arguments, uncover secrets about nature and history, and try to understand how to live a meaningful life as an artist and a son. But how to fit these

pieces of his life together? Where to begin? Or should he leave society altogether? Exploring everyday events and scenes--waiting rooms, dog walks, family meals--while investigatively venturing to the edges of society, where culture dissolves into mystery, Lin shows what it is to write a novel in real time. Illuminating and deeply felt, as it builds toward a stunning, if unexpected, romance, *Leave Society* is a masterly story about life and art at the end of history. A VINTAGE ORIGINAL

GONZALEZ: I wouldn't necessarily say that I tweet what makes me feel uncomfortable, I think it's more that I feel comfortable tweeting things that I would never feel comfortable saying in a real life conversation, or even in other places on the internet.
