I have a very old Craftsmen fixed router that I have attached to an old table top router stand, which I intend to leave that way, while upgrading the tiny fence on it. I have just acquired a Skil Model 1835 Type 1 plunge router that came with no manual but have never used a plunge router and would like to obtain the manual.

The adapters are a standard thread size and should fit most guides. It was easy to install on by Skil router. Two small phillips screws held it firmly onto the base plate. Due to the opaque base of most Skil routers, I recommend replacing the base with some 1/8" to 1/4" thick plexiglass. Either should work well.
