Wes Anderson on Stefan Zweig: "I had never heard of Zweig...when I just more or less by chance bought a copy of *Beware of Pity*. I loved this first book. I also read the *The Post-Office Girl*. The *Grand Budapest Hotel* has elements that were sort of stolen from both these books. Two characters in our story are vaguely meant to represent Zweig himself — our “ Author ” character, played by Tom Wilkinson, and the theoretically fictionalised version of himself, played by Jude Law. But, in fact, M. Gustave, the main character who is played by Ralph Fiennes, is modelled significantly on Zweig as well." 2009 PEN Translation Prize Finalist The logic of capitalism, boom and bust, is unremitting and unforgiving. But what happens to human feeling in a completely commodified world? In *The Post-Office Girl*, Stefan Zweig, a deep analyst of the human passions, lays bare the private life of capitalism. Christine toils in a provincial post office in post – World War I Austria, a country gripped by unemployment. Out of the blue, a telegram arrives from Christine ' s rich American aunt inviting her to a resort in the Swiss Alps. Christine is immediately swept up into a world of inconceivable wealth and unleashed desire. She feels herself utterly transformed: nothing is impossible. But then, abruptly, her aunt cuts her loose. Christine returns to the post office, where yes, nothing will ever be the same. Christine meets Ferdinand, a bitter war veteran and disappointed architect, who works construction jobs when he can get them. They are drawn to each other, even as they are crushed by a sense of deprivation, of anger and shame. Work, politics, love, sex: everything is impossible for them. Life is meaningless, unless, through one desperate and decisive act, they can secretly remake their world from within. *Cinderella meets Bonnie and Clyde* in Zweig ' s haunting and hard-as-nails novel, completed during the 1930s, as he was driven by the Nazis into exile, but left unpublished at the time of his death. *The Post-Office Girl*, available here for the first time in English, transforms our image of a modern master ' s achievement.

*Chess Story*, also known as *The Royal Game*, is the Austrian master Stefan Zweig ' s final achievement, completed in Brazilian exile and sent off to his American publisher only days before his suicide in 1942. It is the only story in which Zweig looks at Nazism, and he does so with characteristic emphasis on the psychological. Travelers by ship from New York to Buenos Aires find that on board with them is the world champion of chess, an arrogant and unfriendly man. They come together to try their skills against him and are soundly defeated. Then a mysterious passenger steps forward to advise them and their fortunes change. How he came to possess his extraordinary grasp of the game of chess and at what cost lie at the heart of Zweig ' s story. This new translation of *Chess Story* brings out the work ' s unusual mixture of high suspense and poignant reflection.

*Unforgiving Years* is a thrilling and terrifying journey into the disastrous, blazing core of the twentieth century. Victor Serge ' s final novel, here translated into English for the first time, is at once the most ambitious, bleakest, and most lyrical of this neglected major writer ' s works. The book is arranged into four sections, like the panels of an immense mural or the movements of a symphony. In the first, D, a lifelong revolutionary who has broken with the Communist Party and expects retribution at any moment, flees through the streets of prewar Paris, haunted by the ghosts of his past and his fears for the future. Part two finds D ' s friend and fellow revolutionary Daria caught up in the defense of a besieged Leningrad, the horrors and heroism of which Serge brings to terrifying life. The third part is set in Germany. On a dangerous assignment behind the lines, Daria finds herself in a city destroyed by both Allied

bombing and Nazism, where the populace now confronts the prospect of total defeat. The novel closes in Mexico, in a remote and prodigiously beautiful part of the New World where D and Daria are reunited, hoping that they may at last have escaped the grim reckonings of their modern era. A visionary novel, a political novel, a novel of adventure, passion, and ideas, of despair and, against all odds, of hope, *Unforgiving Years* is a rediscovered masterpiece by the author of *The Case of Comrade Tulayev*.

An NYRB Classics Original Stefan Zweig was particularly drawn to the novella, and *Confusion*, a rigorous and yet transporting dramatization of the conflict between the heart and the mind, is among his supreme achievements in the form. A young man who is rapidly going to the dogs in Berlin is packed off by his father to a university in a sleepy provincial town. There a brilliant lecture awakens in him a wild passion for learning—as well as a peculiarly intense fascination with the graying professor who gave the talk. The student grows close to the professor, becoming a regular visitor to the apartment he shares with his much younger wife. He takes it upon himself to urge his teacher to finish the great work of scholarship that he has been laboring at for years and even offers to help him in any way he can. The professor welcomes the young man's attentions, at least on some days. On others, he rages without apparent reason or turns away from his disciple with cold scorn. The young man is baffled, wounded. He cannot understand. But the wife understands. She understands perfectly. And one way or another she will help him to understand too.

Alfred Döblin's many imposing novels, above all *Berlin Alexanderplatz*, have established him as one of the titans of modern German literature. This collection of his stories—astonishingly, the first ever to appear in English—shows him to have been a master of short fiction too. *Bright Magic* includes all of Döblin's first book, *The Murder of a Buttercup*, a work of savage brilliance and a landmark of literary expressionism, as well as two longer stories composed in the 1940s, when he lived in exile in Southern California. The early collection is full of mind-bending and sexually charged narratives, from the dizzying descent into madness that has made the title story one of the most anthologized of German stories to “*She Who Helped*,” where mortality roams the streets of nineteenth-century Manhattan with a white borzoi and a quiet smile, and “*The Ballerina and the Body*,” which describes a terrible duel to the death. Of the two later stories, “*Materialism, A Fable*,” in which news of humanity's soulless doctrines reaches the animals, elements, and the molecules themselves, is especially delightful.

Don Carpenter's *Hard Rain Falling* is a tough-as-nails account of being down and out, but never down for good—a Dostoyevskian tale of crime, punishment, and the pursuit of an ever-elusive redemption. The novel follows the adventures of Jack Levitt, an orphaned teenager living off his wits in the fleabag hotels and seedy pool halls of Portland, Oregon. Jack befriends Billy Lancing, a young black runaway and pool hustler extraordinaire. A heist gone wrong gets Jack sent to reform school, from which he emerges embittered by abuse and solitary confinement. In the meantime Billy has joined the middle class—married, fathered a son, acquired a business and a mistress. But neither Jack nor Billy can escape their troubled pasts, and they will meet again in San Quentin before their strange double drama comes to a violent and revelatory end.

The largest one-volume edition of the American thinker's journals ever published captures the scope, rhythms, and variety of the work as a whole, exploring the source from which Thoreau drew his timeless books and essays. Original.

'Like a pizza delivery driver who travels everywhere by moped, or a volcanologist who keeps turning the central heating up, I'm a film critic who loves going to the cinema.' Peter Bradshaw is the film reviewer for intelligent, curious cinemagoers; he has worked at the Guardian for twenty years. *The Films That Made Me* collates his finest reviews from the last two decades, which carry with them his deep experience, knowledge and understanding of film. Introducing each section with a brief introductory article in his light, humorous tone, and ranging from *The Cat in the Hat* and the *Twilight Saga* to *Synecdoche: New York*, Bradshaw shares the films that he loved, the films that he hated, the films that made him laugh, cry, swoon and scared. Bradshaw's reviews range from the insightful and introspective to the savage and funny. *The Films That Made Me* is a must read for all film fanatics.

Henry David Thoreau's *Journal* was his life's work: the daily practice of writing that accompanied his daily walks, the workshop where he developed his books and essays, and a project in its own right—one of the most intensive explorations ever made of the everyday environment, the revolving seasons, and the changing self. It is a treasure trove of some of the finest prose in English and, for those acquainted with it, its prismatic pages exercise a hypnotic fascination. Yet at roughly seven thousand pages, or two million words, it remains Thoreau's least-known work. This reader's edition, the largest one-volume edition of Thoreau's *Journal* ever published, is the first to capture the scope, rhythms, and variety of the work as a whole. Ranging freely over the world at large, the *Journal* is no less devoted to the life within. As Thoreau says, "It is in vain to write on the seasons unless you have the seasons in you."
