Everyone has secrets. Even best friends. Swirling black descends like ravens, large enough to block the glow of the streetlights. A dull roar starts like a train on the 'L', a far-away rumbling that grows louder as it pulls closer, until it's directly overhead and you feel it in your chest, except this doesn't pass you by. Verity, white-faced and eyes blazing, shouts through the din, "Run, Mo!" Mo Fitzgerald knows about secrets. But when she witnesses her best friend's murder, she discovers Verity was hiding things she never could have guessed. To find the answers she needs and the vengeance she craves, Mo--quiet, ordinary, unmagical Mo--will have to enter a world of raw magic and shifting alliances. And she'll have to choose between two very different, equally dangerous guys--protective, duty-bound Colin and brash, mysterious Luc. One wants to save her, one wants to claim her. Which would you choose? "Who doesn't love a character torn between two dangerous worlds and two risky guys? The only thing safe about this book is how good it is." --Lee Nichols, author of Deception, A Haunting Emma Novel "Dark, exciting and totally addictive! Just. . .wow!" -Kristi Cook, author of Haven "Dark, magical, and delicious!" --New York Times Bestselling Author C. L. Wilson

I beat you. Twice. No magic, and I still beat you. And that was when I didn't know what I was doing. I smiled, cold as the winter sky outside. "Imagine what I'm capable of now." Mo Fitzgerald has made her choice: A life in Chicago. A future with Colin. To leave behind the enigmatic Luc and the world of the Arcs. But every decision she's made, from avenging her best friend's death to protecting the people she loves, has come at a terrible price. As her father returns from prison and the Seraphim regroup, war breaks out in both her worlds. And Mo isn't the only one with secrets to hide and choices to make. The more she struggles to keep her magic and mortal lives separate, the deadlier the consequences. In the end, Mo must risk everything - her life, her heart, her future--or lose it all. Praise for Erica O'Rourke's Torn O'Rourke's heroine is refreshing: determined, spunky, and unpredictable." -Library Journal "Fast-paced action, a mysterious underworld and a dark, exciting quest for vengeance. O'Rourke had me hanging on every word." -RT Book Reviews "A beautifully written dramatic story of loss, destiny, sacrifice, and love." -SciFiChick.com

In this inventive romantic thriller, Del has the power to navigate between alternate realities--and the power to save multiple worlds. Every time someone makes a choice, a new, parallel world is spun off the existing one. Eating breakfast or skipping it, turning left instead of right, sneaking out instead of staying in bed--all of these choices create alternate universes in which echo selves take the roads not traveled. Del knows this because she's a Walker, someone who can navigate between the worlds, and whose job is to keep the dimensions in harmony. But Del's decisions have consequences too. Even though she's forbidden from Walking after a training session goes horribly wrong, she secretly starts to investigate other dissonant worlds. She's particularly intrigued by the echo versions of Simon Lane, a guy who won't give her the time of day in the main world, but whose alternate selves are uniquely interested. But falling for Simon draws Del closer to a truth that the Council of Walkers is trying to hide--a secret that threatens the fate of the entire multiverse. "O'Rourke brilliantly builds an intricate and complex alternate science-fiction universe that contains beautiful imagery and visualization. A definite page-turner." -School Library Journal

As a Walker between worlds, Del is responsible for the love of her life--and the fate of millions--in this thrilling sequel to Dissonance. As School Library Journal raves, "O'Rourke brilliantly builds an intricate and complex alternate science-fiction universe...fans will be longing for the next installment." Del risked everything to save Simon, and now he's gone, off in another world with no way for Del to find him. She's back at the Consort--training to be a Walker like everyone in her family. But the Free Walkers have other plans for her. This rebel group is trying to convince Del that the Consort is evil, and that her parents are unwittingly helping the Consort kill millions of people. The Free Walkers make Del the ultimate promise: if Del joins their fight, she will be reunited with Simon. In agreeing, Del might be endangering her family. But if she doesn't, innocent

Amanda Hocking is an indie publishing sensation whose self-published novels have sold millions of copies all over the world. Step into the world of the Trylle, and prepare to be enchanted.... When Wendy Everly first discovers the truth about herself—that she's a changeling switched at birth—she knows her life will never be the same. Now she's about to learn that there's more to the story... She shares a closer connection to her Vittra rivals than she ever imagined—and they'll stop at nothing to lure her to their side. With the threat of war looming, her only hope of saving the Trylle is to master her magical powers—and marry an equally powerful royal. But that means walking away from Finn, her handsome bodyguard who's strictly off limits...and Loki, a Vittra prince with whom she shares a growing attraction. Torn between her heart and her people, between love and duty, Wendy must decide her fate. If she makes the wrong choice, she could lose everything, and everybody, she's ever wanted...in both worlds. As a special gift to readers, this book contains a new, never-before-published bonus story, "One Day, Three Ways," set in the magical world of the Trylle.

It's graduation day for sixteen-year-old Malencia Vale, and the entire Five Lakes Colony (the former Great Lakes) is celebrating. All Cia can think about—hope for—is whether she'll be chosen for The Testing, a United Commonwealth program that selects the best and brightest new graduates to become possible leaders of the slowly revitalizing post-war civilization. When Cia is chosen, her father finally tells her about his own nightmarish half-memories of The Testing. Armed with his dire warnings ("Cia, trust no one"), she bravely heads off to Tosu City, far away from friends and family, perhaps forever. Danger, romance—and sheer terror—await.

Del's older sister can also walk between worlds, but her loyalties are uniquely tested in this original novella set in the inventive world of *Dissonance*. Addison Sullivan, Del's older sister, has always been considered a model Walker—but her reputation within the Consort has been tainted by her grandfather's betrayal and her sister's recklessness. She is desperate to regain her position within the Consort and equally desperate to keep Del from spiraling out of control after losing the boy she loves. The Consort offers Addie a chance to redeem herself: if she can track down the Free Walkers her grandfather knew twenty years ago, they'll fast-track her apprenticeship and put her in charge of her own team. Addie asks a former classmate and crush, Laurel, a Consort historian, for help. As they work together, Addie's feelings for Laurel resurface, but she's too afraid to act. Same-sex relationships aren't expressly forbidden by the Consort, but she fears that a relationship with Laurel would be viewed as yet another mark against her. While she is fighting her feelings for Laurel, troubling details start emerging during their investigation...details that paint Addie's family in a sinister light. Will she reveal what she's learned to the Consort, or try to protect her family? This novella is set in the time between *Dissonance* and *Resonance*.

Eva Nine was raised by the robot Muthr. But when a marauder destroys the underground sanctuary she called home, twelve-year-old Eva is forced to flee aboveground. Eva Nine is searching for anyone else like her. She knows that other humans exist because of a very special item she treasures ~ a scrap of cardboard on which is depicted a young girl, an adult, and a robot along with the strange word "WondLa". Tony DiTerlizzi honours traditional children's literature in this totally original space age adventure: one that is as complex as an alien planet, but as simple as a child's wish for a place to belong.

Sixteen-year-old Malencia (Cia) Vale rebels against her government's grueling and deadly testing process, a fight that puts her and her loved ones in danger.
