...

In general, an automatic car might be better suited to those who are used to urban driving. If nothing else, not having to press the clutch on and off continuously will lessen driver fatigue. If you travel longer distances or are used to driving on faster roads, a manual car could be a better option.

Better fuel efficiency –
Overall, manual transmission
engines are less complex,
weigh less, and have more
gears than automatics. The
end result is that you'll
end up getting more
kilometres out of the petrol
you pump in than you would
with an automatic. Manual
transmissions have been
known to save drivers
between 5% and 15% on their
fuel costs.
