Help your kids be more creative, and you'll reap the benefits as well. Parents are often blamed for everything - neglecting our children, spoiling them, neglecting them while spoiling them.

In this text the authors push forward our understanding of what young children's creative thinking is, and how it promotes young children's well-being.

Tap into children's natural curiosity and scaffold their creative abilities across all domains of learning--and nurture your own creativity!

Creativity informs all learning, but can it be taught? This book answers a resounding yes! It also shows you exactly how to nourish creativity and problem-solving abilities in your students. After presenting valid models of creative thinkers who appear in outstanding children's literature, the author offers a variety of activities that help young learners develop their creative processes through fluency, flexibility, and originality. She also provides lists for further reading and guidelines for adapting the lessons to other grade levels. With its thorough and upbeat approach, this book helps you empower students with important skills that they will use throughout their lives. Grades K-4 (adaptable to other grades).

CREATIVITY AND THE ARTS WITH YOUNG CHILDREN, Third Edition, is written for early childhood educators as well as those who work with children from birth through age eight. The text focuses on helping educators make the vital connection to the arts—including music, movement, drama, and the visual arts—throughout all areas of the classroom and curriculum, and on developing creative teachers who will be able to foster an artistic environment. Observations and photos of teachers and children demonstrate practical ways the arts can be used to help children reach their potential. Educators will find many ideas for open-ended activities that are important for the development of young children, and which will encourage them to think in new ways. Discussion of professional standards and recommendations allows teachers to be cognizant of goals that are important in the early years. Thorough in its coverage, the text speaks to children with special needs and cultural diversity, leaving readers with a complete information resource regarding arts in the young child's classroom. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

This book vividly illustrates how Anna Craft's concept of "possibility thinking"--shifting from "what is" to "what might be"--is at the heart of creativity. It traces the verbal and non-verbal communication, collaboration and identity development of three children as they use art and craft through their first three years in school. Through the engaging words and actions of the self-named Rosie Runner, Hot Wheels and Box Boy, readers are led through the immersive worlds of young children. Educators in early years settings and primary schools, creative arts playworkers and social studies researchers will see how they can observe, document, foster and assess creativity in their own settings and enhance their own pedagogical practice.

Young Children and the Arts: Nurturing Imagination and Creativity examines the place of the arts in the experiences of young and very young children at home and in out-of-home settings at school and in the community. There is great need for development of resources in the arts specifically designed to introduce babies and toddlers to participatory experiences in the visual arts, dance, music, and storytelling/theater. This book presents valuable guidelines for early childhood teachers, families, caregivers and community organizations. Young Children and the Arts presents a comprehensive approach to the arts that is aligned with early childhood developmentally appropriate practice and that combines an exploratory, materials-based approach with an aesthetic-education approach for children from birth to eight years of age. It addresses both how the arts are foundational to learning, and how teachers and parents can nurture young children's developing imagination and creativity. The models presented emphasize a participatory approach, introducing young children to the arts through activities that call for engagement, initiative and creative activity. Additionally, Young Children and the Arts addresses the intersection of early childhood education and the arts—at points of convergence, and at moments of tension. The role of families and communities in developing and promoting arts suffused experiences for and with young children are addressed. Young Children and the Arts examines the role of innovative arts policy in supporting a broad-based early arts program across the diverse settings in which young children and their families live, work, and learn.

In this text the authors push forward our understanding of what young children's creative thinking is, and how it promotes young children's well-being.

In business, education, and our personal lives, we achieve innovation and progress through creative thinking. Creativity for Everybody provides a fast overview so that anyone can take hold of their creative thinking and support the creativity of others. This innovative new book sets the stage for growth, and empowers you and those around you to use fresh thinking at home, at school, and at work. Creativity for Everybody combines the talents of a writer-poet-educator and a designer-artist-simplifier into a fun, quick read on the science of creativity. Its varied design elements (visual collages, photographs, line drawings, graphic art) and creative components (simple prose, poetry, sidelines, and delightful endnotes) invite you into an engaging reading experience.

Drawing on what hard science says about the factors that breed happiness in childhood and beyond, here are 10 simple principles for fostering the skills and habits that will set the stage for optimism, emotional health, and confidence for kids.
